

PROCUREMENT POLICY

DeltaSBD is committed to ensuring that all plant, equipment, hazardous substances, dangerous goods purchased meet their health and safety criteria.

To achieve this the following shall be followed:

- *Prior to purchasing any Plant, Equipment, hazardous substance or dangerous goods, DeltaSBD will ensure that all items will be subjected to health and safety checks. To do this all Plant, Equipment, hazardous substances or dangerous goods will need to comply with the legislative requirements as shown below:*
 - *Workplace Health and Safety Act and Regulations*
 - *Coal Mining Act and Regulations*
 - *NSW guidelines and Codes of Practice*
 - *Australian Standards pertaining to purchase*
 - *Other health and safety requirements set by DeltaSBD and Clients*
- *Conduct a Risk Assessment (as per the Risk Assessment Australian Standard) on any Plant, Equipment, hazardous substance or dangerous goods prior to purchase to ensure that the product does not pose any unnecessary risk to employees, contractors or other personnel within the workplace*

Managing Director, DeltaSBD.
