

HEALTH, SAFETY AND ENVIRONMENT POLICY

DeltaSBD considers the safety and health of our employees and contractors and the protection of the environment to be of utmost importance.

DeltaSBD believes safety, health and environmental aspects of our business are an integral part of the day to day management of our business

To achieve this, DeltaSBD will undertake the following:

- *Integrate safety, health and environmental considerations into all aspects of the day to day management of our activities*
- *For all tasks undertaken, use a risk assessment approach to manage potential hazards and impacts*
- *Conduct audits, inspections and other activities to ensure identification of safety, health and environmental issues.*
- *Set appropriate objectives and targets to ensure continuous improvement in performance for safety, health and environmental aspects*
- *Undertake appropriate investigations of all accidents and incidents and implement action plans to reduce risks*
- *Promote safety, health and environmental awareness amongst our employees and encourage continuous improvement by*
 - *providing appropriate training*
 - *encouraging employee participation in safety health and environmental issues*
 - *providing feedback to employees on all incidents*
- *Comply with all Client requirements and with all relevant legislation and regulations governing DeltaSBD's activities*
- *Set and monitor performance targets*

Managing Director, DeltaSBD
